Title: Ends and Ways

Author: Perianwyr

Virtue is on our lips,
always. But swords
are there, too, living
among our thoughts
of how "civilized" we
are. But the civilizer
is often just a mask
for the conqueror.
And what is virtue if
it is only a word in
which you egoize?
The world is a living
sea of infinite
intellect, and each
culture is merely a
stick with which it is
stirred. If others'
thoughts are your
own, you demean all.
